Mr. Grant Pinkerton
General Manager
North Lily Mining Company
P.O. Box 421
Eureka, Utah 84628

Dear Mr. Pinkerton:

Re: **Final Approval of Permit Amendment, Expansion of Heap Leaching Facility,
Tintic Heap Leach Project, M/023/007, Juab County, Utah**

On April 25, 1991, the Board of Oil, Gas and Mining (Board) approved of the amount and form of replacement surety provided by North Lily Mining Company to amend their permit for the Tintic Heap Leach Project. On May 3, 1991, the Division received a copy of the State Bureau of Water Pollution Control's (BWPC) Construction Permit for the proposed leach pad expansion. The Division is also in receipt of your revised engineering designs that have been approved by the BWPC.

North Lily Mining Company has now met all of the Division's requirements to allow you to formally proceed with the remainder of the construction activities proposed under Phase I of your permit amendment. Final approval is hereby granted to carry out the proposed expansion of your mining operation. Thank you for your continued cooperation in completing this permitting action.

Sincerely,

D. Wayne Hedberg

Permit Supervisor/Hydrologist
